

CAST TEE SIGNS QUOTE / ORDER SHEET

CHOOSE YOUR MATERIAL

Bronze

Made of 85% copper, bronze is a timeless way to showcase your tee box. All raised areas are satin polished to expose the rich red metal beneath.

Aluminum

Our aluminum signs offer durability with the classic look of cast metal. Raised areas are satin polished to expose an elegant silver finish.

Gold over Alum.

By rolling gold over raised areas on the sign, you can achieve the look of rich dimensional signage at a fraction of the cost. Gold raised areas contrast the sign background.
